

Madhujya Pran Borah

AI Data Reviewer & Annotation Specialist

madhujya418@gmail.com | +91 93659 55530 | Guwahati, Assam, India | Remote-Ready

PROFESSIONAL SUMMARY

Detail-oriented BBA Marketing graduate with hands-on experience in AI model training, screenshot analysis, and structured data review. Skilled at interpreting complex software interfaces — dashboards, CRM tools, admin panels, and web applications — with a strict focus on evidence-based, observable findings. Proven ability to work independently in digital environments, maintain high accuracy under guidelines, and communicate clear, reasoned assessments. Genuinely passionate about AI development and committed to delivering quality output that improves model performance.

CORE COMPETENCIES

UI & Screenshot Analysis	Evidence-Based Annotation	Structured Data Review
AI Model Evaluation	Attention to Detail & Accuracy	Written Communication
High Computer Literacy	Remote Work & Time Management	Quality Assurance Mindset
CRM & Dashboard Navigation	AI Tools & Workflows	Analytical Thinking

WORK EXPERIENCE

AI Model Trainer & Data Annotator (Freelance / Self-Directed)

Independent Practice | Ongoing

- Reviewed and evaluated AI-generated outputs, assessing factual accuracy, logical coherence, and instruction-following quality.
- Annotated responses with structured, evidence-based reasoning — clearly distinguishing observable facts from assumptions.
- Analyzed screenshots of software interfaces including web apps, dashboards, and admin tools to identify UI elements and interpret workflows.
- Maintained consistency and adherence to annotation guidelines across high volumes of structured review tasks.
- Stayed current with AI development trends, tools, and evaluation methodologies through continuous self-study.

Store Manager

Family Retail Store | Dec 2025 – May 2026 (5 Months)

- Managed daily operations independently in a remote-style setup — accountable for billing, inventory tracking, and customer interactions without direct supervision.
- Developed strong time management and documentation habits while handling structured, process-driven tasks.
- Built adaptability and communication skills through varied customer scenarios and problem-solving under pressure.

Sales Intern

Royal Enfield – Jorhat Dealership | 2024 (1 Month)

- Observed and documented customer interactions and dealership workflows — building skills in structured observation and reporting.
- Assisted with lead follow-ups and contributed to team coordination, strengthening written and verbal communication.

KEY PROJECTS & ACHIEVEMENTS

AI Annotation & Model Training Practice

Actively trained and evaluated AI models through structured review workflows. Developed proficiency in grounding assessments strictly in observable evidence and writing clear, concise justifications for every annotation decision.

Software Interface Analysis – Digital Content Work

Created and reviewed video content using editing platforms (DaVinci Resolve, Fusion), gaining deep familiarity with complex multi-panel software UIs, node graphs, and technical dashboards — directly applicable to screenshot analysis

tasks.

Structured Review Processes – Retail Management

Designed and maintained inventory and billing logs using MS Excel, applying consistent structured frameworks to track, verify, and report data accurately — mirroring the rigor required in annotation and data review roles.

EDUCATION

Bachelor of Business Administration (BBA) – Marketing Specialisation

Dispur College | Aug 2022 – Jul 2025

- Coursework in consumer behaviour, business communication, analytical thinking, and market research.
- Developed structured reporting and presentation skills using MS Office Suite throughout the programme.

TECHNICAL SKILLS

Software & Interfaces: MS Excel, PowerPoint, Word/Office Suite, DaVinci Resolve/Fusion, CRM tools, web-based dashboards

AI & Annotation: AI model evaluation, prompt assessment, structured annotation workflows, evidence-based review

Digital Tools: Video editing, motion graphics, content creation platforms, browser-based productivity tools

Languages: English (Professional), Hindi (Fluent), Assamese (Native)

INTERESTS & TRANSFERABLE SKILLS

Gaming & Fast Adaptation: Avid gamer with a strong ability to rapidly learn and navigate complex new systems.

Gaming has trained an instinct for pattern recognition, UI mapping, and quick adaptation to unfamiliar interfaces — skills that directly transfer to screenshot analysis, software review, and structured annotation work. Approaching a new game's ruleset in minutes is the same muscle as onboarding to a new dashboard or annotation guideline fast.
